SUBJECT: JOB TRAINING AUTOMATION SYSTEM VERSION 3.13.0 RELEASE

The purpose of this Information Bulletin is to inform you that the Job Training Partnership Division (JTPD) is releasing Job Training Automation (JTA) Version 3.13.0 beginning July 17, 1998. A detailed description of the software changes is attached. Timeshare Service Delivery Areas (SDA) should expect the software to be available beginning July 20, 1998. Standalone JTA SDAs can access the release files at the Shasta County Private Industry Council's server site on July 20, 1998.

This software release includes modifications and enhancements that are a result of calls to the JTA Help Desk and suggestions from SDA staff for improving the JTA system.

Release 3.12.0 must be installed prior to the installation of this release.

Should you have any questions regarding the JTA Release, please call the JTA Help Desk at (916) 653-0202.

## **JOB TRAINING AUTOMATION (JTA) RELEASE NOTES**

### **SDA Release 3.12.0**

#### **NOTE TO TIMESHARE SERVICE DELIVERY AREAS (SDA):**

This release will be installed over the weekend. We ask that you do not access your system from Friday, July 17, 1998, at 6:00 p.m. through Monday, July 20, 1998, at 8:00 a.m.

#### **Programs Modified:**

##### **EEMP – Enter Employer Data – Log # 4318**

A change has been made to this process which will allow the user to either enter an employer number or to auto-generate the number for new employer records. Also, the field s\_er\_nam has been added to the table, which will allow the entry of a short employer name. This will be a 10 character optional field.

##### **EEF – Enter Enrollment Number – Log # 4308**

When a slot code was entered through the EEF screen and the enrollment form was filed, the slot code was not re-displayed when the user re-entered the screen in update mode. This has been corrected so that the information will be re-displayed. In addition, a choice list was added to the employer name field.

##### **PJ11 – Print Characteristics Summary – Log # 4268**

A change has been made to the option screen for this report. In the past, the program would allow monthly reports to be transferred to JTPD. Non-final PJ11 reports are only required on a quarterly basis (September, December, March, June). If the user attempts to transfer a non-final report which is not for one of these report period, an error message will be generated.

##### **EAG – Enter Agency Data – Log # 4330**

This program did not allow multiple users to access this program at the same time. The program has been corrected to allow concurrent users.

##### **ESLOT – Enter Slot Codes – Log # 4339**

##### **EEF – Enter Enrollment Form – Log # 4339**

Prior to JTA version 3.12.0 release, the program ESLOT allowed the entry of alpha/numeric slot codes. The program will once again accept these codes.

##### **EPSW – Enter Performance Standards Worksheet - Log # 4324**

A SQL message was generated when the performance standards worksheets were entered. This has been corrected by requiring the entry of a program year and always formatting the program year before filing.

#### **PPSR – Print Performance Standards Report – Log # 4329**

A previous release incorrectly changed the rounding process in the performance standards reports. This has been corrected in this release, so rounding is now consistent between PPSR and the state's performance standards programs.

#### **Multiple Programs – Log # 4345**

The programs have been changed so the user does not see the *32 groups* message.

#### **ESSN – Log # 4332**

When another program calls ESSN and the user is not authorized to run the program, the user will get a message instead of the message going to the system log.

#### **RDEN - Log #4385**

The conditional operators processing on the employer name field has been corrected when the field was left blank or NULL was entered. Also, the page numbering has been corrected.

#### **EEF - Log #4348**

The program was changed to allow the enrollment date to equal the termination date of a previous case.
